

OPTIMIZATION OF ELECTROSTATIC PRECIPITATOR

WE KEEP YOUR DEDUSTING INSTALLATION UPDATED!

Increasing environmental regulations require intensive maintenance and optimization of dedusting installations.

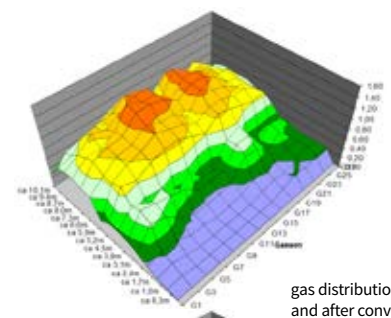

- Manufacturing and assembly of all the inlet and outlet gas pipes/channels
- Delivery of spare parts/wear parts

OUR RANGE OF SERVICES INCLUDES:

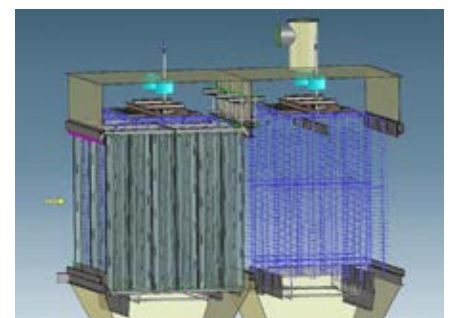

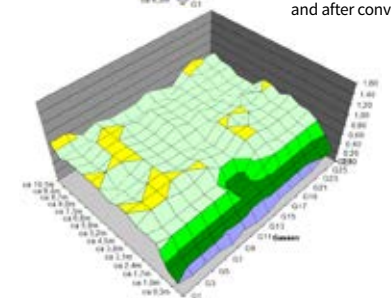

- Inspection of existing electrostatic precipitators incl. documentation and recommendation of measures to be taken
- Gas flow optimization by mechanical installations considering the measured values
- Maintenance of existing installations by gas distribution before and after conversion
 - alignment of the DE/CE- systems
 - verification of the cleaning systems
 - ...
- Conversion of electrostatic precipitators for meeting the legal emission limits.
- Optimization of the high voltage system incl. digital control
- Maintenance of the dust transport systems

YOUR ADVANTAGES:

- Long-term experience in the field of maintenance and optimization of electrostatic precipitators of various suppliers
- Full-Service-Provider: engineering, manufacturing and assembly from one single source
- 24/7 Service-Hotline – short reaction times in the event of repairs
- Manufacturer independence when acquiring spare and wear parts

gas distribution before and after conversion

OPTIMIZATION OF ELECTROSTATIC PRECIPITATOR

OUR SERVICEPRODUCTS:

SAG AND TUBE MILLS

Precise manufacturing for highest demands

CRANE RUNWAY

Engineering, manufacturing and installation of crane runways, crane girders and columns

GRINDING OF TYRE SURFACES

tube mills, rotary kilns and drums

ELECTROSTATIC PRECIPITATOR

Inspection and optimization of electrostatic precipitators

CRUSHING PLANTS

Inspection and maintenance of crushing plants

LIME PLANTS

Engineering, manufacturing and installation of plant components

WASTE INCINERATION PLANTS

Inspection and maintenance of waste incineration plants

HUMAN RESOURCES CONSULTING

Selection of specialists

REPAIR SERVICE

Quick repair of plant components

MACHINE DIAGNOSTICS

Measurement of vibrations, imbalances, bearing noise and alignment of machine parts

ROTARY KILN SECTIONS

Production and assembly of kiln and tire sections

STEEL AND ROLLING MILL

Manufacturing, assembly, conversion and repair of plant components

ALMOST 50 YEARS OF EXPERIENCE

With almost 50 years of experience, we, as an international active company, are the right contact wherever maintenance, revision and modification works, assembly and disassembly works are to be performed in a professional manner.

CHALLENGE US! WE ARE ALWAYS AVAILABLE VIA OUR 24/7 SERVICE!
